BENEFIT SPOTLIGHT

Top Member Request: Job Safety Analysis Toolkit

Use this simple step-by-step method to analyze tasks, uncover potential hazards and develop safer solutions. Designed for supervisors and employees working together, the Job Safety Analysis (JSA) process helps improve employee engagement and gives employees ownership of their solutions and job safety.

The member-exclusive JSA Toolkit includes:

- Tip sheet describing the process
- Talking points to inform employees
- Template JSA form to print for writing plus PDF fillable fields for computer use
- Sample JSA form (completed)
- Poster for supervisors
- Digital slides for your monitors
